

SEPTEMBER 2021 COVID VACCINATION REPORT SUMMARY

These data, provided by the PA Department of Health, allow the Health Department to determine if, where and for whom there are lower vaccination rates and to target action to increase vaccination rates in the county.

Vaccination Rates as of week ending September 11, 2021

The number of vaccines given per week to Allegheny County residents was at its peak during late March 2021.

As of September 11, 2021, a total of 796,841 individuals were vaccinated. Based on these data, the Health Department estimates that about 67% of eligible residents are fully vaccinated, with an additional 7% partially vaccinated.

This estimate is based on the population that is 10 years of age and older. Even though children aren't eligible until age 12 and older, population data is available in the 10 and older age group.
